

## Daily Status Report From Emcs For Wurzel Ltd

This report replaces the Daily Line Faults Report. It provides additional IMPORTANT information on your sites.

Please contact CSL's Technical Support on 01895 474 444 if any radio fails are not restored so that it can be investigated (you will need to quote the NUA/ESN).

**\*\* Do Not Disregard \*\***

**Total Commissioned Sites: 10**

**None of your sites had alarm activations between 6 AM yesterday and 6 AM today**

**This Daily Status Report will Display Details of :**

1. Sites currently in Line Fault (2)
2. Sites with a path enablement date yesterday (0)
3. Sites that had their first signal logged yesterday (0)
4. Sites commissioned yesterday (0).
5. Sites decommissioned yesterday (0).

### **Line Faults - Oldest First**

PLEASE NOTE: Sites fitted with CSL DualCOM and RedCARE GSM are capable of having two distinct line faults - a Land Line Fault and a GID fault.

Only when both of these are in Line Fault will the whole System be in line fault. For your information, this report will show the status of the Land Line and the GID even if only one is in Line Fault.
