| Description                                                                                                                                                                                                                                                                                                                                           | Quantity | Unit Price | VAT | Amount GBP |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|------------|-----|------------|
| The engineer will attend the site and install a new Loco to establish a wireless connection to the packing barn. They will then also install an access point in there to enable people to connect to the wifi.<br><br>At the moment, there isn't a spare power socket in this barn, meaning we will need to have our electrician get power out there. | 1.00     | 110.00     | 20% | 110.00     |
| Ubiquiti Nanostation Loco 5AC<br>- These will be used to create a wireless bridge between 2 points                                                                                                                                                                                                                                                    | 1.00     | 49.79      | 20% | 49.79      |
| airCube AC WiFi Access Point                                                                                                                                                                                                                                                                                                                          | 1.00     | 75.80      | 20% | 75.80      |
