Description	Quantity	Unit Price	VAT	Amount GBP
UniFi Pro WiFi 6 Access Point - An access point provides wireless connectivity for devices to connect to a wired network, extending network coverage and facilitating wireless communication.	1.00	183.60	20%	183.60
TP-Link PoE Passive Switch 5 Port (4 Ports PoE) - This links the network together and powers the WiFi access points	1.00	44.19	20%	44.19
Cabling, Fixtures & Fittings	1.00	25.59	20%	25.59
Labour WI-FI Points - Install the appropriate hard-wired WiFi access points based on your requirements and location. - Install Ethernet cabling from each access point location to your network switch or router using PoE cabling. (Or install cabling from existing data point to wifi point). - Mounting equipment for the wifi points. - Configure each access point with the desired wireless network settings, including SSID, security protocols. - Test each wifi access point thoroughly on its coverage, signal strength, and performance. Adjust configurations as needed to optimise performance and reliability. - Keep detailed records of the access point locations, configurations, and network topology for troubleshooting, maintenance, and future expansion on Wurzel's network.	1.00	195.00	20%	195.00
